

“You guys did an outstanding job of providing us with an awesome and unforgettable adventure. I had the time of my life and learned a lot about myself. Thank you so much for everything you did. This program far exceeded my expectations.”

- Accenture

Kayak Challenge

Your team challenge is to locate, navigate, and successfully paddle to a variety of locations within a designated period of time. Using 2-person kayaks, each team has multiple kayaks to earn as many points as possible.

Foundation

The group will be split into teams of 4 or 6 with the overall activity objective of reaching as many locations as possible in the allotted time.

Briefing

Teams receive a series of Race Target Locations. This is where strategy kicks into play. Which Race Locations will each of the 2-person kayaks be assigned to reach? Distance and endurance will help teams determine a strategy that will maximize performance points.

Action and Results

Coordinating team resources is the key to success in this fast moving team adventure. Guaranteed to test communications under pressure, teams will quickly come to understand the importance of setting a pace, coordinating actions, and pairing up resources effectively.

Ideal Environment:

- Corporate Meetings
- Retreats/Annual Kick-Off Meeting
- National/Regional Meetings
- Team/Corporate Restructuring

Team Size:

- 5 – 100

Space Requirements:

- Outdoor

Timeframe:

- 2 hours – 4 hours

Physical Challenge:

- High

Kayak Challenge Briefing

Teams gather on the shore for the Race briefing and to gain insight into the TEAM Balance Race Model that provides the foundation for TEAM success.

Program Kick-Off

Ready, set, paddle! Your team challenge is to locate, navigate, and successfully paddle to a variety of locations within a designated period of time. Sounds easy? Guess again!

Kayak Challenge in Action

Using 2 person kayaks, each team has multiple kayaks to earn as many points as possible while determining the best 'team duo' to paddle to the farthest locations. Different locations have different point values. Which team will devise the optimum strategy to balance kayak team selections, distance, point values and endurance.

Results and Celebration

At the finish area, teams will gather for official scoring. And the winners are?

Outcomes & Objectives

- Team members learn what areas of the TEAM Balance Model 'energize' them during the strategy designing process
- Develops team management skills
- Engages team spirit and builds trust among team members
- Rewards the team for successful teamwork in an engaging and fun program
- Inspires the team to work collaboratively and devise an effective strategy
